duct pipe CTR125

CRGC150B

Reducer $\varnothing F$ int. 150 mm for duct
pipe CTR150 - $\varnothing M$ ext. 121 mm for
duct pipe CTR125

Description: Reduction cone for ducted ventilation

Material: ABS plastic

Features: The reduction cone allows you to switch from one pipe diameter to another without having to cut anything. It is part of the ducted ventilation system which allows rapid evacuation of vapors (max 80° C) and unpleasant odors from environments such as the kitchen or bathrooms and a healthy exchange of air.
