

## Universal flashing for sheets and gutters

----- Dimensions (mm)

Available colours  
(matching with sheets):

<b>CO</b> Coral Red	<b>TN</b> Natural Brick	<b>GS</b> Dark Grey
<b>VO</b> Olive Green	<b>RT</b> Brick ref. RAL 8023	<b>BA</b> Slate Blue ref. RAL 7016

Available colours  
(matching with gutters):

brown
copper effect
steel effect

**Material:** Technopolymer

**Use:** The universal lateral flashing is adaptable to both Cover Life sheets and First Plast gutters. It allows the closure between the sheets positioned at the lateral end of the slope and the vertical wall.

Item	Colour	Dimensions mm	Matching sheet colours
<b>SU205CO</b>	CO	173x161x2050	CO
<b>SU205TN</b>	TN	173x161x2050	TN
<b>SU205GS</b>	GS	173x161x2050	GS *
<b>SU205VO</b>	VO	173x161x2050	VO
<b>SU205RT</b>	RT	173x161x2050	RT
<b>SU105TN</b>	TN	173x161x1050	TN
<b>SU105BA</b>	BA	173x161x1050	BA
<b>SU105RT</b>	RT	173x161x1050	RT

\* compatible with gutter grey

Item	Colour	Dimensions mm	Matching gutter colours
<b>SU205M</b>	brown	173x161x2050	brown
<b>SU205R</b>	copper effect	173x161x2050	copper effect
<b>SU205AC</b>	steel effect	173x161x2050	steel effect

**Installation:** The flashing must be mounted under the sheet. It is fixed to the slope plane with the installation direction going from the eaves line towards the ridge line. Fixing with an O-ring cap and screws is recommended.
