**Description:** Pipe clamp set for Profil Top Freddo system

**Material:** PVC

**Features:** The clamp set is useful for fixing pipes of various diameters in air conditioning systems. Compatible with FPRTxxx trunking. Use clamps to secure pipes, add a bubble on a clamp for duct leveling. Fix with screws+plugs (T545).

Profil Top Freddo is an aesthetic and practical split connection system made of shockproof, self-extinguishing and UV-resistant PVC. It allows the installation of air conditioning systems.
