SG45	434	434	13	25	56	4050	680	25 kN
SG55	534	534	13	35	65	7400	830	64 kN

Material: PVC-U

Colour: Light grey

Features: The grates are made of anti-shock PVC which gives to the product elasticity and resistance to impact, frost and atmospheric agents.

The slots of the SGN20, SGN25 and SGN30 grates have rounded ends and are arranged in 2 rows, while those of the SGN40 are arranged in 4 rows.

The slots of the SG45 have a rectangular shape and are arranged in 4 rows, while those of the SG55 are arranged in 5 rows.

- Suitable for driveways
- Walking surface has a non-slip relief
